Dan,

I think I forgot to attached the label with my original email. Here it is.

Dan,

Everything is moving so fast, but I wanted to submit another update for the proposed Engenia herbicide labeling. These changes do not directly impact the agreed upon mitigation changes, but correct inconsistency and remove a few artifacts from the previous Engenia herbicide labeling that was the starting point for this proposed labeling. I don't mean to be disruptive in the middle of the review process, but if these changes can avoid last minute changes that are needed prior to approval then I would rather make them available to you at this time.

As always, let me know if you have any questions or comments.

Thanks,

Jeff
